

KC & CE-Certified DE-PLT-15K (Electronic Load) / Certification

Input	Voltage	AC185V-265V
	Frequency	45-65Hz
	Current	3 A
	Power Factor	≥0.65 at over half power
	Efficiency	≥87% at full power
Load output	Voltage	1-150V
	Maximum current	Maximum 0-200A
	Electric power	15KW
	Voltage accuracy	±2%
	Current accuracy	±2%
	Ripple voltage	5%
Protection	Maximum voltage	Stops running if exceeded
	Maximum current	Cannot be set to exceed the max. value
	Maximum power	Controlled within 15KW
	Temperature protection	Within 100°C
	Reverse voltage	Stops running and displays an error message
Safety	EMI	Satisfies KC standards
	Electromagnetic noise	Satisfies KC standards
	Harmonic current	Satisfies KC standards
	Inrush current	≤5A
	Vibration resistance	Satisfies KC standards
	Noise	≤60dB
	MTBF (service life)	100000 hours
	Operating temperature and humidity	-40-60°C, relative humidity 5-95%
